

iPad use survey results

The following are the results of the brief iPad survey conducted by ITS and the Library to get a better grasp regarding the uses of the iPads in the Performing Arts Resource Center (PARC).

The iPads began being checked out for circulation on January 27 of 2014. There were a total of 77 iPads both checked out and in. This survey was conducted between March 24th and May 6th of 2014. During this survey 19 forms were filled out.

The survey was discontinued after a couple weeks of the forms not being filled out due to redundancy of people using the iPads. I would suggest a re implementation of the survey this Fall 2014 to gather more data as it will be the second year of the PARC.
